---

PROJECTS

HR Attrition Dashboard | Power BI   **July - 2025**
- Designed an interactive dashboard to analyze employee attrition trends and workforce demographics.
- Developed key KPIs including employee count, attrition rate, active employees, and average age.
- Visualized attrition by department, education field, gender, age group, and job satisfaction.
- Utilized Power BI, DAX, and data storytelling to support HR in identifying high-risk areas and improving retention strategies.

Copbot | LINK   **February- May 2025**
- Built CopBot for the Thoothukudi Cyber Hackathon, an AI assistant that provides citizens with accurate information strictly from police-uploaded documents using LlamaIndex and Gemini 2.0.
- Designed a system where police can easily upload, organize, and manage documents for secure information retrieval.
- Delivered fast, reliable, and document-verified answers, improving citizen trust and service efficiency.

CERTIFICATES

Data Analytics with AI | **SoloLearn** | LINK   **June 2025**
- Completed an industry-relevant course on Data Analytics with AI, covering practical and theoretical concepts.
- Developed skills in data analysis, AI-driven insights, and hands-on Python projects.

Big Data | Infosys Springboard | LINK   **October 2024**
- Introduced to big data ecosystems and scalable data processing.
- Developed a clear understanding of data storage, analytics, and real-world applications.
